Advisors

Advisors to 'Marine Ecology – Progress Series' are appointed for a four-year period. They are expected to:

- ○ critically evaluate the scientific merits of manuscripts submitted for publication
- ○ suggest topics and authors for reviews
- ○ select and present suitable high-quality manuscripts
- ○ draw attention to new facts, concepts and methods

In addition to the advisors listed below, about 100 referees cooperate anonymously.

ENVIRONMENTAL FACTORS

Alderdice, D., Dr.
Pacific Biological Station, Nanaimo, B.C. V9R 5K6, Canada
Responses to environmental stress

Dring, M. J., Dr.
Botany Dept, The Queen's Univ. of Belfast, Belfast BT7 1NN, Northern Ireland
Physiological ecology of algae

Egami, N. N., Prof.
Zoological Institute, Faculty of Sciences, Univ. of Tokyo, Hongo, Tokyo 113, Japan
Effects of radioactivity

Gunkel, W., Dr.
Biologische Anstalt Helgoland, D-2192 Helgoland, Federal Republic of Germany
Environmental effects on bacterial growth

Haedrich, R. L., Prof.
Memorial University of Newfoundland, St. John's, Nfld. A1B 3X9, Canada
Environmental effects on fishes

Hedgpeth, J., Prof.
5660 Montecito Avenue, Santa Rosa, Calif. 95404, USA
Temperature effects on marine organisms

Iwai, T., Prof.
Department of Fisheries, Kyoto University, Kyoto, Japan
Environmental effects on early life history and histology of fishes

Jansson, B.-O., Prof.
Univ. of Stockholm, Box 6801, S-113 86 Stockholm, Sweden
Environmental effects on invertebrates

Lawrence, J., Prof.
Dept of Biology, Univ. of South Florida, Tampa, Fla 33620, USA
Physiological ecology of invertebrates

MacLeod, R. A., Prof.
Dept of Microbiology, MacDonald Campus of McGill Univ., MacDonald College, Que. H9X 1C0, Canada
Physiological ecology of microorganisms

Morita, R. Y., Prof.
Dept of Microbiology, Oregon State Univ., Corvallis, Oreg. 97331, USA
Environmental effects on microorganisms

Newell, R. C., Prof.
Institute for Marine Environmental Research, Prospect Place, The Hoe, Plymouth PL1 3DH, England
Environmental relations of intertidal animals

Nultsch, W., Prof.
Fachbereich Biologie der Philipps-Univ., Lahnberge, D-355 Marburg, Federal Republic of Germany
Light effects on plants; locomotion of microorganisms

Rheinheimer, G., Prof.
Institut für Meereskunde, Univ. Kiel, Düsternbrooker Weg 20, D-2300 Kiel, Federal Republic of Germany
Environmental effects on microorganisms

Rosenthal, H., Dr.
Biologische Anstalt Helgoland, Palmaille 9, D-2000 Hamburg 50, Federal Republic of Germany
Environmental effects on fishes

Schramm, W., Dr.
Institut für Meereskunde, Univ. Kiel, Düsternbrooker Weg 20, D-2300 Kiel, Federal Republic of Germany
Physiological ecology of algae

Segal, E., Prof.
Dept of Biology, California State Univ., Northridge, Calif. 91330, USA
Physiological ecology of invertebrates

Siebers, D., Dr.
Biologische Anstalt Helgoland, Palmaille 9, D-2000 Hamburg 50, Federal Republic of Germany
Physiological ecology of invertebrates

Sindermann, C. J., Dr.
U.S. Dept of Commerce, NOAA, National Marine Fisheries Service, Northeast Fisheries Center, Sandy Hook Laboratory, Highlands, N. J. 07732, USA
Environmental effects on pollution-associated diseases

Tokin, I. B., Prof.
Murmansk Marine Biol. Station, Academy of Sci., USSR, Murmansk, USSR
Environmental effects on functional cytology

Vernberg, J., Prof.
Belle W. Baruch Institute for Marine Biol. and Coastal Res., Univ. of South Carolina, Columbia, S. C. 29208, USA
Physiological ecology of invertebrates

Winter, J. E., Dr.
Instituto de Zoología, Univ. Austral de Chile, Casilla 567, Valdivia, Chile
Physiological ecology of invertebrates

Woodhead, D. S., Dr.
Ministry of Agriculture, Fisheries and Food, Fisheries Radiobiological Lab., Hamilton Dock, Lowestoft, Suffolk NR32 1DA, England
Effects of radioactivity

ZoBell, C. E., Prof.
Scripps Institution of Oceanography, San Diego, P.O.B. 1529, La Jolla, Calif. 92093, USA
Environmental effects on microorganisms

PHYSIOLOGICAL MECHANISMS

Battaglia, B., Prof.
Istituto di Biologia Animale dell'Università, Via Loredan 10, I-35100 Padova, Italy
Population genetics; evolution

Bayne, B. L., Dr.
Institute for Marine Environmental Research, 67/69 Citadel Road, Plymouth PL1 3DH, England
Comparative physiology

Beardmore, J. A., Prof.
Univ. College of Swansea, Dept of Genetics, Singleton Park, Swansea SA2 8PP, U.K.
Adaptation; selection

Bonotto, S., Prof.
Centre d' Etude de l'Energie Nucléaire, Lab. du C.E.N./S.C.K., B-2400 Mol, Belgium
Cellular biology

Bulnheim, H.-P., Prof.
Biologische Anstalt Helgoland, Palmaille 9, D-2000 Hamburg 50, Federal Republic of Germany
Metabolic performance of invertebrates; reproductive biology

Costlow, J. D., Jr., Prof.
Duke University Marine Laboratory, Pivers Island, Beaufort, N.C. 28516, USA
Developmental physiology; endocrinology

Enright, J. T., Prof.
Scripps Institution of Oceanography, San Diego, P.O.B. 1529, La Jolla, Calif. 92093, USA
Biological rhythms

Fishelson, L., Prof.
Dept of Zoology, Tel-Aviv Univ., Tel-Aviv, Israel
Adaptation and sex reversal in fishes

Floc'h, J.-Y., Dr.
Lab. de Physiologie Végétale, Faculté des Sciences, Ave Victor le Gorgeau, F-29283 Brest, France
Metabolic processes of algae

Gilles, R., Prof.
Institute de Zoologie, Univ. de Liège, Quai Van Beneden, 22, B-4020 Liège, Belgium
Osmoregulation; cell-volume control

Gundersen, K., Prof.
Dept of Marine Microbiology, Univ. of Göteborg, Carls Skottsbergs Gata 22, S-413 19 Göteborg, Sweden
Microbial processes in the nitrogen cycle

Holland, N. D., Dr.
Scripps Institution of Oceanography, San Diego, P.O.B. 1529, La Jolla, Calif. 92093, USA
Comparative, cellular and developmental physiology

Humphrey, G. F., Dr.
CSIRO Marine Biochemistry, Building A12, Sydney Univ., N.S.W. 2006, Australia
Photosynthesis; plankton biochemistry

Levandowsky, M., Dr.
Haskins Laboratories at Pace Univ., 41 Park Row, New York, N.Y. 10038, USA
Chemosensory mechanisms

Naylor, E., Prof.
Dept of Marine Biology, Univ. of Liverpool, Port Erin, Isle of Man, U.K.
Behavioural physiology

Pandian, T. J., Prof.
School of Biological Sciences, Madurai Kamaraj Univ., Madurai 625 021, Tamilnadu, India
Bioenergetics

Russell, G., Dr.
Dept of Botany, Univ. Liverpool, P.O.B. 147, Liverpool L69 3BX, England
Genetics of algae

Siebers, D., Dr.
Biologische Anstalt Helgoland, Palmaille 9, D-2000 Hamburg 50, Federal Republic of Germany
Comparative biochemistry of invertebrates

Zhirmunsky, A. V., Prof.
Institute of Marine Biology, Vladivostok 69002, USSR
Mechanisms of cellular resistance and control

CULTIVATION

Bardach, J. E., Prof.
East-West Resources Systems Institute, The East-West Center, 1777 East-West Road, Honolulu, Hawaii 96848, USA
General aspects of cultivation; aquaculture

Bilio, M., Dr.
Centro Ricerche Ittiologiche di Comacchio, S. I. VAL. CO., Via Mazzini 200, I-44022 Comacchio, Italy
Aquaculture

Bonotto, S., Prof.
Centre d'Étude de l'Énergie Nucleaire, Lab. du C.E.N./S.C.K., B-2400 Mol, Belgium
Cultivation of multicellular algae (including aquaculture)

Carriker, M. R., Prof.
College of Marine Studies, Univ. of Delaware, Lewes, Delaware 19958, USA
Cultivation of molluscs

Droop, M. R., Dr.
Scottish Marine Biological Ass., Dunstaffnage Marine Res. Lab., P.O.B. 3, Oban, Argyll PA34 4AD, Scotland
Nutrition of algae

Dudok van Heel, W. H., Dr.
Dolfinarium Harderwijk, Strandboulevard, Harderwijk, The Netherlands
Cultivation of marine mammals

Floc'h, J.-Y., Dr.
Lab. de Physiologie Végétale, Faculté des Sciences, Ave Victor le Gorgeau, F-29283 Brest, France
Nutrition of algae

Halver, J. E., Prof.
College of Fisheries, Univ. of Washington, Seattle, Wash. 98195, USA
Nutrition of fishes

Lawrence, J., Prof.
Dept of Biology, Univ. of South Florida, Tampa, Fla 33620, USA
Nutrition of invertebrates

Levandowsky, M., Dr.
Haskins Laboratories at Pace Univ., 41 Park Row, New York. N.Y. 10038, USA
Microcosm cultures

Magne, F., Prof.
Univ. de Paris VI, Inst. de Biologie Végétale, UER 59, 7, Quai Saint-Bernard, F-75230 Paris, Cedex 05, France
Cultivation of algae (excluding aquaculture)

Paffenhöfer, G.-A., Dr.
Skidaway Institute of Oceanography, Univ. System of Georgia, P.O.B. 13687, Savannah, Georgia 31406, USA
Cultivation of zooplankton

Pandian, T. J., Prof.
School of Biological Sciences, Madurai Kamaraj Univ., Madurai 625 021, Tamilnadu, India
Cultivation of decapods and fishes

Persoone, G., Prof.
Laboratory for Mariculture, State Univ. of Ghent, J. Plateaustraat 22, B-9000 Ghent, Belgium
Cultivation of invertebrates

Rheinheimer, G., Prof.
Institut für Meereskunde, Univ. Kiel, Düsternbrooker Weg 20, D-2300 Kiel, Federal Republic of Germany
Cultivation of microorganisms

Rosenthal, H., Dr.
Biologische Anstalt Helgoland, Palmaille 9, D-2000 Hamburg 50, Federal Republic of Germany
Cultivation of fishes

Ryther, J., Dr.
Woods Hole Oceanographic Institution, Woods Hole, Mass. 02543, USA
Cultivation of aquatic plants

Sindermann, C. J., Dr.
U.S. Dept of Commerce, NOAA, National Marine Fisheries Service, Northeast Fisheries Center, Sandy Hook Lab., Highlands, N. J. 07732, USA
Aquaculture: effects of diseases

Ukeles, R., Dr.
U.S. Dept of Commerce, NOAA, National Marine Fisheries Service, Northeast Fisheries Center, Milford Lab., 212 Rogers Ave, Milford, Conn. 06460, USA
Cultivation of unicellular algae

Westernhagen, H. von, Dr.
Biologische Anstalt Helgoland, Palmaille 9, D-2000 Hamburg 50, Federal Republic of Germany
Cultivation of crustaceans and fishes

Winter, J. E., Dr.

Management of wadden-sea areas

MARINE ECOLOGY – PROGRESS SERIES

History: 'Marine Ecology – Progress Series' was established in response to requests from numerous marine ecologists from all over the world. The series is based on 'Marine Ecology' – the first comprehensive, integrated treatise on life in oceans and coastal waters – conceived, organized and edited by Professor Otto Kinne and published by Wiley & Sons.

Aim: It is the aim of 'Marine Ecology – Progress Series' to update, deepen, widen or correct the information presented thus far. While the initiative for planning reviews for 'Marine Ecology' has been the domain of the editor, the Progress Series invites the initiative of advisors and authors. In this way, it is hoped to broaden the original concept and to continuously adjust it to the interests and demands of marine ecologists. Ecological research has become of paramount importance for man's future. The information presented here should, therefore, encourage critical application of ecological knowledge for the benefit of mankind and, in fact, of life on earth.
'Marine Ecology – Progress Series' strives for

- complete coverage of the field of marine ecology
- the highest possible quality of papers
- quick publication
- a high technical standard of presentation.

These goals can be achieved only in close cooperation with contributors, advisors and readers. Hence, criticism and advice are cordially invited (please address to the editor).

Scope: 'Marine Ecology – Progress Series' is international and interdisciplinary. Presenting original papers, short notes and reviews, it has been created for prompt publication of contributions concerned with (see also last pages of each issue):

I. Environmental Factors: Tolerances and responses of marine organisms (microorganisms, autotrophic plants, and animals) to variations in abiotic and biotic components of their environment; radioecology.

II. Physiological Mechanisms: Synthesis and transversion of organic material (mechanisms of auto- and heterotrophy); thermo-, ion-, osmo- and volume regulation; stress resistance; non-genetic and genetic adaptation; population genetics; orientation in space and time; migrations; behaviour.

III. Cultivation: Maintenance and rearing of, as well as experimentation with, marine organisms under environmental and nutritional conditions which are, to a considerable degree, controlled; analysis of the physiological and ecological potential of individuals, populations and species; determination of nutritional requirements; ecological aspects of aquaculture; water-quality management; culture technology.

IV. Dynamics: Production, transformation, and decomposition of organic matter in marine ecosystems; food webs; trophic interrelations; population dynamics; plankton ecology; benthos ecology; estuarine and coastal ecology; wadden-sea ecology; coral-reef ecology; deep-sea ecology; open-ocean ecology; polar ecology; theoretical ecology; ecological modelling; evolution. Diseases of marine organisms.

V. Ocean Management: Organismic zonations and assemblages; worldwide marine organic resources; all aspects of fisheries; pollution of marine environments; protection of life in the seas; management of populations, species, ecosystems and sea areas.

Price per volume: 195 DM plus postage and handling. Air-mail service available at special rate. For their personal use, individual members of scientific institutions can subscribe to 'Marine Ecology – Progress Series' at a substantially reduced price, providing they contribute as authors and their institutional library subscribes to the journal. Contact the publishers for details.

Subscription: Price per volume and number of volumes per annum are subject to change. For each calendar year both will be fixed towards the end of the preceding year. For further information write to Inter-Research, P.O.B. 1121, D-2083 Halstenbek, Federal Republic of Germany.

Appearance: Volume 1, 1979; Volumes 2–3, 1980. Each volume consists of 4 issues.

Manuscript Preparation, Mailing and Processing

Preparation

Original papers (in general not exceeding 10 printed pages), short notes (1–2 printed pages) and reviews (in general up to 40 printed pages) must be typewritten with double spacing. 'Marine Ecology – Progress Series' invites interpretive rather than descriptive contributions. Reviews should be critical, instructive evaluations of the state-of-the-art – not mere compilations of information.

Abstracts. Both original papers and reviews must be preceded by a brief, concise abstract. The abstract should summarize the results obtained and conclusions drawn, and be suitable for reprinting in reference periodicals.

Figures must be very carefully prepared, numbered and accompanied by brief, precise legends. For examples consult recent issues. Mark desired position of figures in the manuscript margin.

Tables should not be excessive in size. They must be numbered and be headed by brief, descriptive legends. Mark desired position of tables in the manuscript margin. Unusual symbols used must be explained.

Genus and species names: underline for *italics.*

Citation of literature. All literature quoted in the text must be listed, in alphabetical order of author names, at the end of the manuscript. Please abbreviate publications according to 'World List of Scientific Periodicals', latest edition, London. For examples of literature citation see below.

Mailing

Address manuscripts (original plus 2 copies) to an advisor or to the editor. For safety use registered mail. The receipt of a manuscript will be acknowledged immediately.

Processing

Manuscripts are critically reviewed. The editor then decides on acceptance or rejection. Acceptable manuscripts are usually returned to the author requesting consideration of comments and criticism.

When an accepted manuscript is ready for publication, the author will be notified and the date of manuscript acceptance fixed. This date appears at the end of each printed contribution.

The author receives 2 sets of proofs directly from the printer. Printing errors must be carefully corrected. At this stage, stylistic changes are not acceptable without compensatory payment. Please return 1 set of proofs to the editor (where applicable by air mail).

Offprints: Sixty offprints of each contribution will be made available free of charge. Any number of additional offprints can be purchased. Orders for additional offprints must be made when returning the proof. For reprint prices consult the form accompanying the proofs.

'Marine Ecology – Progress Series' levies no page charge.

Bridges, C. R. and Brand, A. R.
Oxygen Consumption and Oxygen-Independence in Marine Crustaceans 133–141

Rainbow, P. S., Scott, A. G., Wiggins, E. A. and Jackson, R. W.
Effect of Chelating Agents on the Accumulation of Cadmium by the Barnacle *Semibalanus balanoides*, and Complexation of Soluble Cd, Zn and Cu 143–152

Spaargaren, D, H.
Hydrodynamic Properties of Benthic Marine Crustacea. II. Energy Requirements for Maintaining Vertical Position 153–156

Ben-Amotz, B. and Gilboa, A.
Cryopreservation of Marine Unicellular Algae. I. A. Survey of Algae with Regard to Size, Culture, Age, Photosynthetic Activity and Chlorophyll-to-Cell Ratio 157–161

Nakamura, K. and Sekiguchi, K.
Mating Behavior and Oviposition in the Pycnogonid *Propallene longiceps* 163–168

Powell, E. N., Crenshaw, M. A. and Rieger, R. M.
Adaptations to Sulfide in Sulfide-System Meiofauna. Endproducts of Sulfide Detoxification in Three Turbellarians and a Gastrotrich 169–177

Volume 2 · Number 3 · 1980

Oviatt, C. A., Walker, H. and Pilson, M. E. Q.
An Exploratory Analysis of Microcosm and Ecosystem Behavior Using Multivariate Techniques 179–191

Sheppard, C. R. C.
Coral Cover, Zonation and Diversity on Reef Slopes of Chagos Atolls, and Population Structures of the Major Species 193–205

Jacobs, R. P. W. M.
Effects of the 'Amoco Cadiz' Oil Spill on the Seagrass Community at Roscoff with Special Reference to the Benthic Infauna 207–212

Thomas, W. H., Hollibaugh, J. T., Seibert, D. L. R. and Wallace, G. T., Jr.
Toxicity of a Mixture of Ten Metals to Phytoplankton 213–220

Ben-Amotz, A. and Gilboa, A.
Cryopreservation of Marine Unicellular Algae. II. Induction of Freezing Tolerance 221–224

Kremer, B. P., Schmaljohann, R. and Röttger, R.
Features and Nutritional Significance of Photosynthates Produced by Unicellular Algae Symbiotic with Larger Foraminifera 225–228

Klein Breteler, W. C. M.
Continuous Breeding of Marine Pelagic Copepods in the Presence of Heterotrophic Dinoflagellates 229–233

Santos, S. L. and Simon, J. L.
Marine Soft-Bottom Community Establishment Following Annual Defaunation: Larval or Adult Recruitment? 235–241

Cameron, R. A. and Schroeter, S. C.
Sea Urchin Recruitment: Effect of Substrate Selection on Juvenile Distribution 243–247

Turner, R. L. and Meyer, C. E.
Salinity Tolerance of the Brackish-Water Echinoderm *Ophiophragmus filograneus* (Ophiuroidea) 249–256

Sloan, N. A. and von Bodungen, B.
Distribution and Feeding of the Sea Cucumber *Isostichopus badionotus* in Relation to Shelter and Sediment Criteria of the Bermuda Platform 257–264

Volume 2 · Number 4 · 1980

Boal, J.
Pacific Harbor Seal *(Phoca vitulina richardii)*. Haul Out Impact on the Rocky Midtidal Zone 265–269

Herman, L. M., Baker, C. S., Forestell, P. H. and Antinoja, R. C.
Right Whale *Balaena glacialis* Sightings Near Hawaii: A Clue to the Wintering Grounds? 271–275

Tseitlin, V. B.
Duration of Gastric Digestion in Fishes 277–280

Coles, S. L.
Species Diversity of Decapods Associated with Living and Dead Reef Coral *Pocillopora meandrina* 281–291

Aldrich, J. C., Crowe, W., Fitzgerald, M., Murphy, M., McManus, C., Magennis, B. and Murphy, D.
Analysis of Environmental Gradients and Patchiness in the Distribution of the Epiphytic Marine Hydroid *Clava squamata* 293–301

Brunetti, R., Beghi, L., Bressan, M. and Marin, M. G.
Combined Effects of Temperature and Salinity on Colonies of *Botryllus schlosseri* and *Botrylloides leachi* (Ascidiacea) from the Venetian Lagoon 303–314

Badino, G. and Sella, G.
Phosphoglucose Isomerase Variability in Sympatric Populations of Mediterranean Species of *Patella* (Gastropoda, Prosobranchiata) 315–320

Scheibling, R. E.
Dynamics and Feeding Activity of High-Density Aggregations of *Oreaster reticulatus* (Echinodermata: Asteroidea) in a Sand Patch Habitat 321–327

Hagerman, L. and Østrup, J.
Seasonal and Diel Activity Variations in the Shrimp *Palaemon adspersus* from a Brackish, Non-Tidal Area 329–335

Berry, P. F. and Smale, M. J.
An Estimate of Production and Consumption Rates in the Spiny Lobster *Panulirus homarus* on a Shallow Littoral Reef off the Natal Coast, South Africa 337–343

de Jonge, V. N.
Fluctuations in the Organic Carbon to Chlorophyll *a* Ratios for Estuarine Benthic Diatom Populations 345–353
